New Jersey Institution of Technology – Newark, NJ
Bachelor of Science, Computer Science

September 2022– 2026

WORK EXPERIENCE

Innocuous AI

2025 – Present

February

Website development Intern

- **Developing and Enhancing Web Pages:** Building and updating web pages for the Innocuous AI website using HTML, CSS, and Webflow, ensuring responsiveness and modern design.
- **Improving Branding Elements:** Refining and integrating branding elements into web pages to create a cohesive and professional website aesthetic.
- **Implementing UI/UX Enhancements:** Optimizing website usability by making general improvements and updates to enhance navigation and accessibility.
- **Maintaining Website Performance:** Ensuring high performance and responsiveness by updating and improving website structure, layout, and content.

Twilight Media – New Milford, NJ

August 2024

June 2023 –

Junior Videographer / Social Media Management

- **Event Coverage:** Traveling to various locations to cover live conventions, providing high-quality photography and videography services that capture the essence of the events.
- **Live Monitoring and Editing:** Managing live-monitoring and on-the-fly editing during events to ensure seamless broadcasts, adapting quickly to any issues that arise to maintain viewer engagement.

PROJECTS

- Applicant Tracking System (ATS) Platform – (01/2026 – Present)
Capstone Project | Project Management | React, Django, REST APIs, SQL, Agile, LLM
 - Collaborating in a team of five to design and develop a full-stack Applicant Tracking System, implementing backend APIs and responsive front-end components while analyzing application workflows to improve process efficiency, system organization, and overall user experience.
- Personal Portfolio – (07/2024)
ReactJS, Frame, Tailwind
 - Coded a responsive portfolio website that showcases my projects through dynamic animations and sleek UX/UI design. Utilizing React, Tailwind CSS, and Framer Motion, the site offers seamless interactivity and a visually engaging presentation of my work.
- Zara – (03/2024)
UX/UI Case Study
 - Conducted an in-depth UX/UI case study focused on redesigning Zara's website. The project aimed to enhance the user experience by streamlining the online shopping process, making it more intuitive and efficient for customers.
